

Instructions For The Usage Of Gambir Sarawak

Congratulations on the purchase of Gambir Sarawak. Gambir is a natural herbal product that has been used by natives of the people of Sarawak in East Malaysia for the delaying ejaculation in men. Gambir was discovered by the local natives of Sarawak in 1954 where they realized its natural abilities to delay.

The purity of the Gambir liquid is 100% without any mixtures and is totally herbal and natural without any additives.

To use the product, below are the instructions

1. Apply the liquid on the shaft including the head
2. Spread the liquid around to cover the entire surface area
3. After 5-8 minutes you will feel an icy feeling (Important part)
4. Rinse very lightly or only clean with tissue only (Do not over wash)
5. You will be able to last about 1.5 hrs

The most important part when applying the Gambir liquid is to have the icy feeling, the icy feeling means that the liquid has been absorbed, if you do not feel the icy feeling, it means the liquid has not been absorbed yet or something has gone wrong with the application process.

Some of the common errors occurred

1. Over washing with water or soap after application
2. Applied over a wet surface area, surface area needs to be dry
3. Did not spread the liquid to cover the entire surface area

The current success rate of the Gambir Sarawak product is 85% - 90% of users.

Due Date: June 2025
